FRIDAY, Dec. 13-P. M. There has been a large activity in the Stock market to-day, and the quotations are generally baoyant. Eric was especially the active Stock, and advanced to 881, an improvement of 3 # ct rom the opening of the Board. The Shorts were considerably alarmed. Nearly all the Fancies were firm and in demand at the First Board, but were rather easier at the Second Board. The males of Erie were large, but there was little disposition to sell on time. The market opened this merning at 854 and closed at 884, with a good demand. The continued and rapid rise in this Stock has bad no precedent in the Street for a long time-The Books close after Monday for the Dividends, and probably there will be an exciting contest between the "shorts" and "longs." It is confidently predicted by the friends of the Road that the Stock will be 95 at the opening of the Books on the 2d January, and par by the time the Road is completed to Dunkirk. The receipts in December continue to equal the amount needed to meet the estimate of the year, and as the pre sent cold weather has put a stop to canal navigation and will probably close the river, the traffic for the remainder of the month will be increased. Harlem fell off 4 \$\psi\$ cent. Farmers' went to 564, an advance of | \$\display \text{cent.} There is a strong party in this Stock who have faith in its value much beyond the present price. Canton declined 1 ? cent. Portsmouth was active and improved 1 19 cent. Norwich was active and closed at 65%, an advance of | \$\forall \cent. Reading was heavy, with large sales at the Second Board, closing at 74%, a decline of # P cent. Morris fell off 1 P cent and Stonington & F cent. Erie Incomes were weak at the Second Board, showing a decline of # # cent. In Governments there was not much done, and the market was firm.

In Exchanges the market is very quiet, and the quotations nominal at 9] a 10 for Sterling, 5 18] a

The business in Freights is suspended until the receipt of the foreign letters. Shipments are firm at 161d for flour, with engagements of 2,000 or 3,000 bble, 63d for gram, ad for cotton, 15s for dead weight. To Havre cotton is 2c.

In Money there is no change. A continued abundance of capital is the feature of the market-Prime paper is in moderate supply, and passing at 507 P cent. Long paper is 7 do P cent. Loans en call are freely made at 5 ms & cent., and at the higher rate, the supply exceeds the demand. The Banks are receiving large amounts, and are discounting freely.

The receipts at the Sub-Treasury are \$50,130 Payments, \$183,244; Balance, \$3,479,944.

A new Bank is about to be established in this City called the "Chatham Bank." Mr. Elias G. Drake, late Alderman of the Fifth Ward, is to be President.

Baring Brothers circular, under date of London, Nov. 29, P.M. says American stocks continue in the same quiet state and quotations are unaltered. The annexed statement gives the Custom

Anothernew and valuable Hallroad project for developing the resources of the western part of our State, and opening a new avenue by which the business of the West and Canada can have cheap and quick access to the City of New-York has just been successfully arranged by a party of New-York capitalists. We allude to the Rochester and Nin-ara Falls Railroad. The parties in terested met at Rochester on Tuesday last and elected the following gentlemen as Directors: Joseph B. Varnum and Edward Whitehouse of New-York; Watts Sherman, Albany; Silas O-Smith, A. Boody and Freeman Clark, Rochester; Alexis Ward and R. S. Burrows, Albion; Elias B. Holmes, Brockport. At a subsequent meeting of the Directors, Joseph B. Varnum of New-York was elected President, Alexis Ward of Albion, Vice President, and Freeman Clarke of Rochester, Treasurer. The above names give ample assurance that the project will be

carried out with the greatest energy.-This Road is to be built from Rochester to Lockport, 55 miles, in the best manner. At Lockport it connects with the present Lockport and Ningara Road, which has been bought by the Company, and which is to be shortened and rebuilt as a strictly first class Road. The line crosses the suspension bridge which is to be widened and strengthened, and connects with the projected road from the Canada side of the River to Detroit, and thence by the Central Michigan Railroad to Lake Michigan. Telegraph dispatches were received at Rochester from Detroit on Wednesday, stating that the stock subscription for this Canada Road was fell, and one of the largest capitalists of Albany, deeply interested, went to Canada this week to complete the arrangements. The entire length of the Rochester and Niagara Falls Railroad, will be 74 miles, and it will form the most direct route to Detroit and must command a very large amount of business. The country through which it runs, is one of the richest agricultu ral portions of this State, and the route a very feasible one. It is pronounced by those who have made such matters the study of their lives, to be the best unoccupied ground for a railroad in this State. The railroad projects of New-York have generally been very unsuccessful, and this one promises to be an exception. A contract has been made with A. Boody, Esq. a prominent and highly responsible contractor, for the relaying of the road from Niagara Falls to Lockport and for the construction of the extension from the latter place to Rochester-a whole distance of 74 miles. The road to be laid with an iron rail of 62 pounds to the yard-to be finished within eighteen months, in all respects in a style equal to any in the State, and thoroughly equipped-at a cost of

not exceeding \$22,000 per mile. The Hartford Courant says, it is now one year since the portion of the road between Hartford and Willimantic was opened to the public. About a month later the cars were running west to Plain ville, and in Jane the road was finished to Bristol We learn that the receipts during the year have amounted to \$90,000, and that during the last three months they have averaged \$10,000 a month. These facts are highly encouraging [to the future prosperity of the road. A small dividend has been carned, but it has been used to reduce [the liabilities of the Company. It is fair to estimate the receipts of the ensuing year will be 50 per

cent, in advance of the last. The export of Domestic Cotton Goods from Boston for the month of November, amounted to \$183,786 38, and the total for the eleven mouths f the present year 18. \$1.775,219 85 Seven months, 1849. 1,527,627 05 Do. do. 1848. 1,383,106 73

The exports of Ice for the month of November was 4,853 tuns, and the total since January 1, 1850, has been 68,869 tuns, against 61,808 tuns in the same period of 1849.

It is stated that the net earnings of the Boston and Worcester Railroad, for the current six months are 3; per cent.

The Providence and Boston has also carned 32 per cent.

Counterfeit Tens on the Mechanics' Bank of

New-Bedford are in circulation. The citizens of Sandusky City have resolved to tax themselves \$100,000 to aid in building the Lake Shore Road from that city west to Toledo.
